

ASSURE II

5-16-4

A premium quality foliar nutrient product for use on turf grass, ornamentals and trees throughout the growing season.

GUARANTEED ANALYSIS

| | |
|------------------------------------------------------------|-------|
| Total Nitrogen (N)..... | 5.0% |
| 4.0% Nitrate Nitrogen (N) | |
| 1.0% Ammoniacal Nitrogen (N) | |
| Available Phosphate (P ₂ O ₅) | 16.0% |
| Soluble Potash (K ₂ O) | 4.0% |
| Calcium (Ca) | 5.0% |

Derived from: Urea, Phosphoric Acid, Potassium Phosphate, Calcium Nitrate

Weight per gallon: 11.2 lbs
pH: 1.3

Assure II 5-16-4 is intended as a supplement to a regular fertilization program and may not by itself provide all the nutrients normally required by plants

The information contained in this brochure is believed to be accurate and reliable. It is provided as a means of explaining the products for the benefit of the potential user. EnP Investments cannot be held responsible for any unintentional errors in description of usage due to errors or omissions. EnP Investments further warrants that the products represented in this brochure conforms to the chemical description and are reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use. EnP Investments shall not be responsible for incidental or consequential damages resulting from the use of any product contrary to label instructions or under abnormal conditions or conditions not reasonably foreseeable to EnP Investments.

ASSURE II 5-16-4

- Assure II provides two separate sources of phosphorus that are readily available to the plant plus nitrogen, potassium and calcium.
- Assure II uses a unique manufacturing process that keeps calcium, potash, and phosphorus from forming insoluble nutrients in solution and in the soil.
- Complete nutrient analysis with high P for foliar or root delivery improves plant and root development.
- Especially useful for use on bentgrass during cool temperatures and where phosphorus deficiencies are identified.
- Where rooting is limited, such as in grow-in and recovery situations, this phosphorus and calcium formulation is crucial for plant development.

GENERAL USE GUIDE

| | |
|---------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| Greens and Tees | Apply 1.0 to 3.0 fl oz per 1,000 sq ft every 7 to 21 days. |
| Fairways, Lawns Sports Turf and New Turf | Apply 1.0 to 2.0 gal per acre every 2 to 4 weeks. Warm season turf may require more frequent applications to achieve desired results. |
| Turf Establishment and Recovery | Apply 3.0 to 6.0 fl oz per 1,000 sq ft every 7 to 14 days. |
