Foliar-Pak® Promote is a powerful combination of highly concentrated sea plant extracts.

PRODUCT DESCRIPTION/BENEFITS

- Foliar-Pak Promote is a powerful combination of highly concentrated sea plant extracts, humates, and wetting agents.
- Foliar-Pak Promote can be used effectively as a fertilizer for turf, ornamentals, and trees. Uses include foliar applications, soil drenches, and deep root feeding.
- When applied regularly, turf plants will maintain more balanced growth under difficult conditions including high temperatures, extreme drought, high salinity, low mowing, high traffic, herbicide applications, and disease pressures.

GENERAL USE GUIDE

This product is tank mix compatible with most fertilizers and pesticides. However, due to variability in water sources and pesticide formulations a compatibility test is recommended. Shake well.
