

## **Turf Solutions**

# **80 / 20 SS**

## **Specialty Surfactant**

### **Principal Functioning Agents: Surfactant plus Ammonium Sulfate**

80/20 SS is a specialty surfactant plus ammonium sulfate. 80/20 SS provides good wetting, more uniform distribution, and the presence of ammonium sulfate improves entry of pesticide into the plant. 80/20 SS is formulated alcohol free and non-flammable. 80/20 SS is readily dispersible in water and compatible with fertilizer and pesticide mixtures. Some pesticides have stated adjuvant use rates. In all cases, the pesticide manufacturer's label should be consulted regarding specific adjuvant use recommendations and that rate followed. Do not add adjuvant at a level that would exceed 5% of the finished spray volume.

### **Directions for use:**

Fill spray tank half full with water and begin agitation. Add pesticides as directed by label, thoroughly mixed, add selected rate of 80/20 SS as suggested by the label of pesticide being used.

Insecticides, Fungicides, Acaricides: 4 oz to 16 oz per 100 gallons

Herbicides, Defoliant, Desiccants: 8 to 64 oz per 100 gallons

Foliar Nutrients: 12 oz-32 oz per 100 gallons

Industrial spraying right of ways, Non- crop areas :16 to 32 oz per 100 gallons

80 / 20 SS is available in 1 gallon, 2.5 gallon, 30 gallon, 55 gallon, and 275 gallon packaging options.
