

# Talon

## NUTRIENT PAK

Provides foliar delivery of key nutrients that promote improvement for overall plant health and stress tolerance.

### GUARANTEED ANALYSIS

Calcium (Ca) .....	2.50%
Magnesium (Mg) .....	0.50%
0.50% Water Soluble Magnesium (Mg)	
Sulfur (S) .....	0.50%
0.50% Water Soluble Sulfur (S)	
Boron (B) .....	0.02%
Copper (Cu).....	0.05%
0.05% Water Soluble Copper (Cu)	
Iron (Fe).....	2.00%
2.00% Water Soluble Iron (Fe)	
Manganese (Mn).....	0.50%
0.50% Water Soluble Manganese (Mn)	
Zinc (Zn).....	0.05%
0.05% Water Soluble Zinc (Zn)	

Derived from: boric acid, calcium glucoheptonate, gluconic acid, copper sulfate, ferrous sulfate, magnesium sulfate, manganese sulfate, zinc sulfate

### NON-PLANT FOOD INGREDIENTS

Polymeric Polyhydroxyl Acid .....	4.0%
Sea Plant Extract .....	2.0%

Derived from: humic substances, Ascophyllum nodosum

Weight per gallon: 9.2 lbs  
pH: 3.2

**Talon Nutrient Pak is intended as a supplement to a regular fertilization program and may not by itself provide all the nutrients normally required by plants**

EnP Investments cannot be held responsible for any unintentional errors in description of usage due to errors or omissions. EnP Investments further warrants that the products represented in this brochure conforms to the chemical description and are reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use. EnP Investments shall not be responsible for incidental or consequential damages resulting from the use of any product contrary to label instructions or under abnormal conditions or conditions not reasonably foreseeable to EnP Investments.

### TALON NUTRIENT PAK

- Talon Nutrient Pak provides foliar delivery of key nutrients that promote improvement in overall plant health and stress tolerance. Under many soil and environmental conditions these nutrients are difficult for turf to obtain from soil reserves.
- At low use rates this bio-based formulation can be used as a valuable source of readily available micronutrients and plant extracts. Talon Nutrient Pak targets cell division, chlorophyll formation, increased nutrient mobility and utilization, while improving metabolism of carbohydrates and nitrogen.
- Talon Nutrient Pak is designed to provide superior color and active turf growth. Higher rate applications result in bolstered plant activity which is particularly beneficial for spring green-up, aeration recovery and re-growth after periods of stress.
- Talon Nutrient Pak can be tank mixed with ProVita or Nautico Verde for greater biological enhancement and more balanced turf recovery.

### GENERAL USE GUIDE

<b>Greens and Tees</b>	<b>Cool Season Turf:</b> Apply 0.5 to 1.5 fl oz per 1,000 sq ft every 7 to 21 days <b>Warm Season Turf:</b> Apply 1.0 to 3.0 fl oz per 1,000 sq ft every 7 to 21 days
<b>Fairways Sports Turf</b>	<b>Cool Season Turf:</b> Apply 0.5 to 2.0 fl oz per 1,000 sq ft <b>Warm Season Turf:</b> Apply 1.0 to 3.0 fl oz per 1,000 sq ft
<b>Establishment Aeration Stress Recovery Sod Farms</b>	Apply 1.0 to 3.0 fl oz per 1,000 sq ft
