NAUTICO VERDE

Made from Ascophyllum nodosum harvested off the coast of Norway, the richest source of seaweed in the world. "Cold process extraction," the method used to create this unique product, preserves the integrity of plant extracts, amino acids, organic acids, and sugars. This process results in more biological activity and better uptake of the ingredients.

Due to the unique combination of very beneficial ingredients, Nautico Verde provides the perfect supplement for turf having difficulties sustaining proper growth and chemical balance due to root die back or a juvenile root system.

Benefits:

- New root initiation
- Optimal lateral root production resulting in increased root mass
- Improved photosynthesis especially during summer stress
- Excellent color response and residual color
- Reduced seed germination time
- Excellent response on new seed, new sod, and newly sprigged turf

GENERAL USE GUIDE	
Golf Course Greens	Apply 1.5 to 6.0 fl oz per 1,000 sq ft every 7 to 14 days.
Fairways, Tees, and Athletic Turf	Apply 0.5 to 1.0 gal per acre every 2 to 4 weeks.
Shrubs and Ornamentals	Soil drench or foliar spray 1.0 to 2.0 fl oz per gal of water every 14 to 28 days.
Turfgrass Recovery and Grow-in	Apply 1.5 to 3.0 fl oz per 1,000 sq ft every 7 days or 3.0 to 6.0 fl oz per 1,000 sq ft every 14 days.
