ZETA \times PLEX™ 9-0-0-12 Ca

Safe, reliable nutrients enhanced with a plant derived L-amino acid package and patented amino technology. These bioactive ingredients increase nutrient absorption and maximize plant nutrition through the use of low dose applications. 18 L-amino acids work in various pathways to increase nutrient uptake, nutrient transport, and improve plant tolerance of environmental stress.

Zeta \times plex™ 9-0-0-12 Ca is a high performance foliar fertilizer that provides excellent turf health by offering the following advantages:

- L-amino acids are easily absorbed by plants and enhance uptake of most tank mix products.
- Improves the plant's ability to create necessary proteins and protein structures.
- Utilization of L-amino acids allows the plant to conserve energy and strengthen root systems.
- Calcium improves plant tolerance to disease and stress while enhancing plant stem strength.
- Provides organic molecules that increase chlorophyll and photosynthesis.
- Zeta \times plex™ optimizes calcium uptake.
