EnP Investments further warrants that the products represented in this brochure conforms to the chemical description and are reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use. EnP Investments shall not be responsible for incidental or consequential damages resulting from the use of any product contrary to label instructions or under abnormal conditions or conditions not reasonably foreseeable to EnP Investments.

8-0-4 CALCIUM AND SILICON

- Calcium and Silicon can strengthen cell wall structures providing a better barrier to fungal infection.
- K and Si lead to more erect leaf growth, better traffic tolerance, and more consistent putting surfaces.
- 8-0-4 helps plants maintain superior tolerance to many biotic and abiotic influences.

GENERAL USE GUIDE

Greens and Tees	Apply 1.0 to 9.0 fl oz per 1,000 sq ft every 7 to 21 days
Fairways, Lawns and Sports Turf	Apply 1.0 to 4.0 gal per acre every 2 to 4 weeks.
